TECHNICAL DATA SHEET LOCKERS

MOD. A300 360 HELMETS
A300 360 R AND BAGS

DESCRIPTION

"A" series personal effects lockers are ideal for bags and helmets.
Because they are versatile, they are suitable for use in any facility, such as sports centres, spas, malls and schools.
All Patentverwag lockers are made in stratified HPL, with anodised aluminium profiles, highly resistant materials, that do not fear continuous and constant cleaning with detergents, disinfectants, steam and high-pressure water and that ensure practically unlimited durability, even when used in extremely moist environmental conditions.

The doors, available in a wide range of colours, are made of stratified solid wood HPL; the white structure is also in HPL.

Standard locks: key operated or padlockable.
Optional locks: with mechanical or electronic combination, with token/coin or according to specifications.

LOCKER WITH CLOSED DOORS

LOCKER WITH OPEN DOOR
