PATENTVERWAG
COLLECTIVE FURNITURE TO ENJOY

TECHNICAL DATA SHEET LOCKERS

MOD. E 150 P 325 / 430 FITNESS

DESCRIPTION

Changing room locker on bench with aluminium slats and coloured HPL insert.
A combination of design and technology, the range of lockers in the "EXTRA" series proposes the concept of industrial locker, giving it a more appealing and up-to-date appearance and aiming to offer an object that succeeds in combining cutting edge approach and aesthetics.
The versatility of the FITNESS locker range makes it ideal for changing rooms in sports facilities, swimming complexes, spas and other.
All Patentverwag lockers are made in stratified HPL, with anodised aluminium profiles, highly resistant materials, that do not fear continuous and constant cleaning with detergents, disinfectants, steam and high-pressure water and that ensure practically unlimited durability, even when used in extremely moist environmental conditions.

The doors, available in a wide range of colours, are made of stratified solid wood HPL; the white structure is also in HPL.
Standard locks: key operated or padlockable.
Optional locks: with mechanical or electronic combination, with token/coin or according to specifications.
