TECHNICAL DATA SHEET WASH BASIN COUNTER

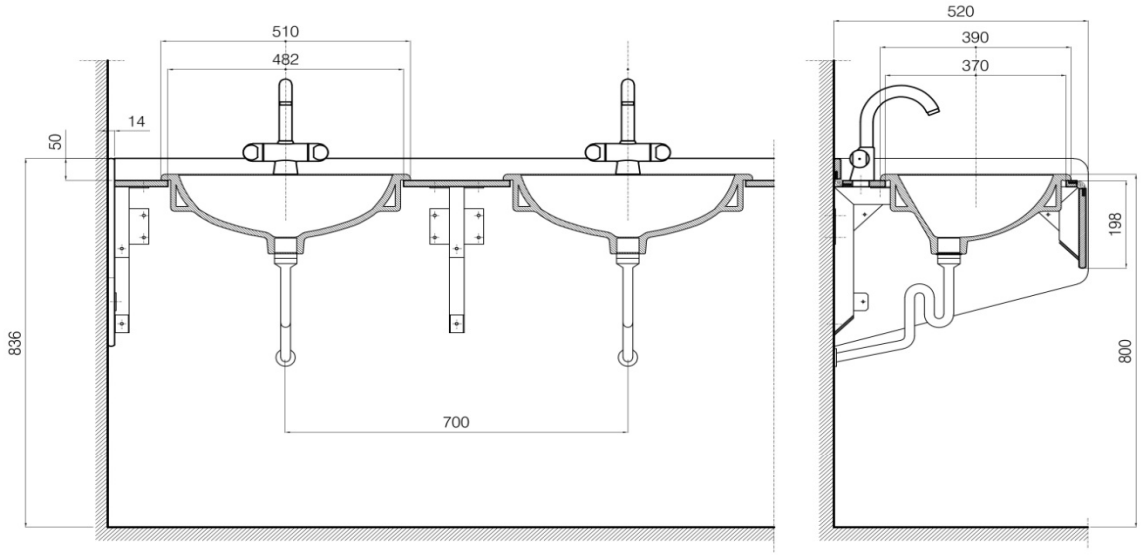

MOD SELENE VARIOUS

DESCRIPTION

The Selene series wash basin counter are made with robust HPL (High Pressure Laminate) slabs with 14 mm thickness (certificate B-s1, d0), very hard material, ideal for resistance to water, steam and chemicals.
The counter is made up of a horizontal surface, with holes for Selene wash basins, drop-in and undermount, and a front panel, protecting the steel wall-mounting brackets.
A back panel acts as a splashguard and sides complete the module.
The joining profiles are natural anodised aluminium.

The maximum dimension of the module is 210 cm for the installation of 3 wash blocks with 70 cm centre distance.
By placing multiple slabs side-by-side and joining them it is possible to compose elements with multiple modules, while maintaining aesthetic uniformity.

GENERAL DIAGRAM

WASH BASIN COUNTER dimensions	
MAXIMUM PANEL WIDTH	210 cm
MAXIMUM NUMBER OF WASH BASIN HOLES per panel	3
(for counters with more than 3 holes there is a joint between the panels)	
DISTANCE BETWEEN WASH BASINS	70 cm
COUNTER DEPTH	52 cm

LAMINATE COLOUR	IN STOCK	WHITE - 1 / SAND - 1 / GREY - 1 / LIGHT BLUE - 1
	ON ORDER	READY IN 6 - 8 WEEKS
