MOD. START B/2 STARTING BLOCK

DESCRIPTION

Mod. Start B/2 starting block is built with AISI 316 stainless steel column and handle.
The ABS starting block has a perfectly non-slip surface and comes in blue or white.
The Start B/2 starting block is tall, ideal for installation in deck overflow swimming pools, and is installed in a back position, behind the pool edge gratings; the handle and the diving block are adjustable, to obtain the perfect position in relation to the edge of the pool.
The column can be used to hold tools for timing and the loud speaker, required for races.
