MOD. START A/4 STARTING BLOCK

DESCRIPTION

The Start A/4 starting block is made with AISI 316 stainless steel column and handle.
The ABS starting block has a perfectly non-slip surface and comes in blue or white.
The Start A/4 starting block is the low type, ideal for installation on the pool headwall; the handle and diving board are adjustable, to obtain the perfect position in relation to the deck.
The column can be used to hold tools for timing and the loud speaker, required for races.
