MOD. START A/1/P STARTING BLOCK

DESCRIPTION

The Start A/1/P model starting block represents an evolved version of this accessory for swimming facilities.
The fully ABS structure and the stainless steel handle make this product resistant and affordable.
The column of the Start A/1/P starting block is set up to hold the devices required for races, such as, for example, the loud speaker.
On the back of the block it is possible to install a stainless steel sheet to cover the hole made for installation of the time keeping tools.
