TECHNICAL DATA SHEET LOCKERS

MOD. AR Y SPORT

DESCRIPTION

AR-Y lockers are ideal for the professional athlete, they are built with stratified HPL laminate and anodised aluminium, very high quality materials, that ensure extreme robustness, at the same time conferring a modern and appealing design.
The locker has a full-height single compartment for personal clothing, two open shelves and a special compartment with two doors for personal effects.
The seat is made in self-extinguishing polypropylene with painted steel supporting structure, to guarantee maximum resistance to stress. Behind the seat's backrest there is another useful compartment.
The roof is inclined, to avoid the accumulation of dust and dirt on top of the locker.
The base stands on an aluminium perimeter footboard, for easy floor cleaning.

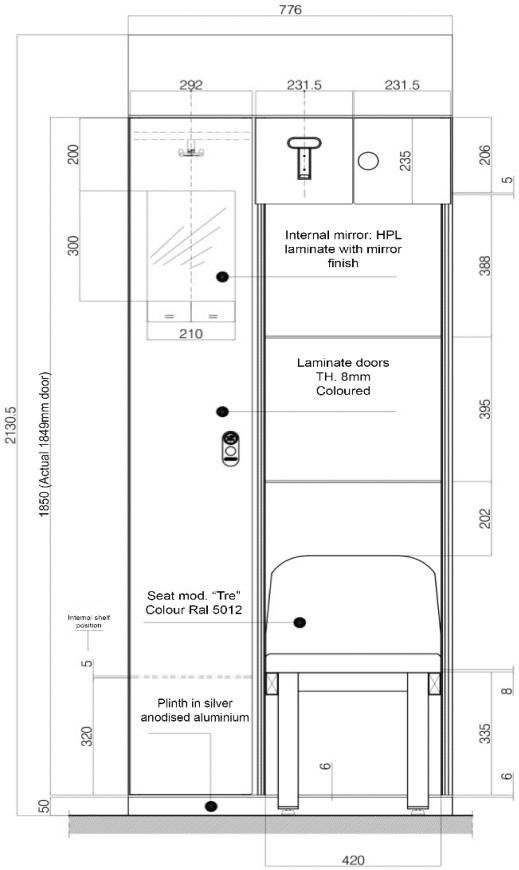

LOCKER WITH CLOSED DOORS

LOCKER WITH OPEN DOOR
