TECHNICAL DATA SHEET LOCKERS

MOD. PX - CLEANING LOCKER VARIOUS

DESCRIPTION

Locker mod. PX is designed to house the necessary material for cleaning the facilities (bucket, mop, brooms, detergents).
Built with very high quality and strong materials, it is not affected by continuous cleaning with chemicals, allowing easy and complete sanitisation.

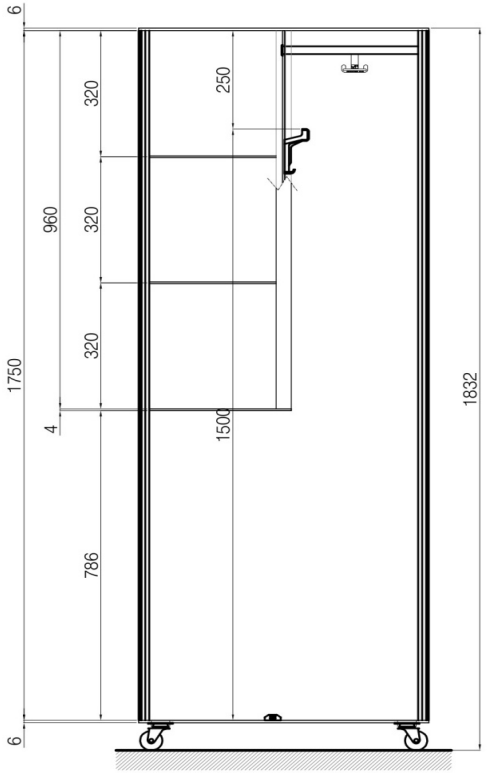

The HPL laminate structure with anodised aluminium profiles, stands on nylon and galvanised steel swivel wheels that make it easy to move the locker.
The doors, which are also HPL laminate and 6 mm thick, are installed on anodised aluminium hinges along the entire height and are equipped with a strong nylon lock with pair of nickel-plated brass keys.
